**THIRD INFORMATION DISCLOSURE STATEMENT**

Sir:

The above-identified U.S. patent application corresponds to JP 2005-516952. An office action was issued by the Japanese Patent Office, and a copy of that office action is attached along with a full English language translation prepared by Japanese counsel for the applicant. The Japanese patent relies upon ten references. The first eight of those references already were made of record in the above-captioned U.S. patent application. The last two references were not made of record previously. Those references have been listed on the attached copy of Form PTO/SB/08a, and copies of those references are attached along with English language Abstracts.

The Examiner is requested to consider these references during the examination and to make the references of record.

Respectfully submitted,
